

Embracing life lines...

Sasha Young-Dumont is a qualified practitioner of advanced facial rejuvenation acupuncture in Richmond and one of her clients, Rosemary Saunders is keen to share her new found experiences

Having glanced at last years holiday snaps I decided before I went away this year to seek consolation in Sasha's expert hands and booked a course of facial rejuvenation acupuncture. A dear friend had recommended me to her after I had commented on how well she was looking.

I was subsequently put at ease with Sasha's initial consultation and looked forward to my course of facial acupuncture. It was so exciting,

to see the weekly improvements after each session which were relatively painless.

Having undergone a course of this amazing treatment which softened my lines, reduced my puffy eyes and tightened my skin beautifully, I felt a new found confidence in combating the aging process naturally and couldn't wait to be snapped up on holiday!

During my sessions, I mentioned that I was suffering from tension related headaches which ceased after acupuncture treatments from Sasha. I couldn't believe the relief after suffering for so long. She explained to me how acupuncture worked and said that a meridian that ran from the outside corner of my eye to my fourth toe needed to be dredged along with other targeted acupuncture points. I was impressed with her knowledge and it felt great to have an understanding of the root of the problem explained so well.

I cannot recommend Sasha highly enough...

Cosmetic acupuncture has witnessed growing attention from the national press in recent times. Dubbed as the new secret beauty weapon to the stars, this noninvasive treatment is designed to revitalise and rejuvenate the overall appearance of your skin, whilst minimising fine lines and wrinkles.
